CONTENTS

VOLUME 43 (1977)

Alkaline sucrose sedimentation studies of MMS-induced DNA single-strand breakage and rejoining in the wild type and in UV-sensitive mutants of *Saccharomyces cerevisiae*
by W.J. Jachymczyk, E. Chlebowicz, Z. Swietlinska and J. Zuk (Warsaw, Poland) (Rec'd Jan. 12th, 1976) . . . . . 1—10

Physiological modification of alkylating agent induced mutagenesis. II. Influence of the numbers of chromosome replicating forks and gene copies on the frequency of mutations induced in *Escherichia coli*
by T.A. Hince and S. Neale (London, England) (Rec'd Sept. 7th, 1976) . . . . 11—24

Radiation-induced DNA single-strand scission and its rejoining in spermatogonia and spermatozoa of mouse
by T. Ono and S. Okada (Tokyo, Japan) (Aug. 10th, 1976) . . . . . 25—36

Induction of mutations in the blue-green alga *Plectonema boryanum* gomont
by R.N. Singh and A.K. Kashyap (Varanasi, India) (Rec'd Sept. 9th, 1976) . . 37—44

Correlation between EMS uptake by barley embryos under different treatment conditions and mutation frequency
by A.S. Khalatkar, A.R. Gopal-Ayengar and C.R. Bhatia (Bombay, India) (Rec'd Oct. 6th, 1976) . . . . . 45—56

Caffeine toxicity in Drosophila strains having different MMS sensitivities
by J. Nigsch, U. Graf and F.E. Würgler (Zürich, Switzerland) (Rec'd Oct. 18th, 1976) . . . . . 57—64

Effects of treating Drosophila females with TEM on their mortality, and the yields of mutation recovered from X-irradiated sperm
by P. Mollet (Zürich, Switzerland) (Rec'd March 29th, 1976) . . . . . 65—70

Individual susceptibility of mice to a mutagen in both germ and somatic cells
by H.U. Aeschbacher, D. Gottwick and H.P. Würzner (Orbe, Switzerland) (Rec'd Aug. 9th, 1976) . . . . . 71—80

γ-ray mutagenesis of cultured mammalian cells in vitro and in vivo
by N. Suzuki and S. Okada (Houston, Texas, U.S.A. and Tokyo, Japan) (Rec'd June 23rd, 1976) . . . . . 81—90

The effect of dose fractionation on γ-radiation induced mutations in mammalian cells
by J.C. Asquith (Harwell, England) (Rec'd July 27th, 1976) . . . . . 91—100

Cell-mediated mutagenesis in cultured Chinese hamster cells by carcinogenic polycyclic hydrocarbons: nature and extent of the associated hydrocarbon-DNA reaction
by R.F. Newbold, C.B. Wigley, M.H. Thompson and P. Brookes (Chalfont St. Giles, England) (Rec'd Aug. 16th, 1976) . . . . . 101—116

Effect of DNA repair on the cytotoxicity and mutagenicity of polycyclic hydrocarbon derivatives in normal and xeroderma pigmentosum human fibroblasts
by V.M. Maher, J.J. McCormick, P.L. Grover and P. Sims (East Lansing, Mich., U.S.A. and London, England) (Rec'd Aug. 14th, 1976) . . . . . 117—138

Excision of gamma-ray induced thymine lesions by preparations from Ataxia telangiectasia fibroblasts
by J.F. Remsen and P.A. Cerutti (Gainesville, Fla., U.S.A.) (Rec'd Oct. 12th, 1976) . . . . . 139—146

Dicentric yields induced by γ-radiation and chromosome arm number in primates
by M. Hirai and S. Nakai (Chiba, Japan) (Rec'd Aug. 9th, 1976) . . . . . 147—158
Asbestos and glass fibres in bacterial mutation tests
by M. Chamberlain and E.M. Tarmy (Glamorgan and Chalfont St. Giles, U.K.) (Rec'd April 4th, 1976) . . . . . 159—164
Mutagenesis of yeast by hydrazine: dependence upon post-treatment cell division
by J.F. Lemonnt (Oak Ridge, Tenn., U.S.A.) (Rec'd July 27th, 1976) . . . . . 165—178
Pathways of ultraviolet mutability in *Saccharomyces cerevisiae*. III. Genetic analysis and properties of mutants resistant to ultraviolet-induced forward mutation
by J.F. Lemonnt (Oak Ridge, Tenn., U.S.A.) (Rec'd Oct. 6th, 1976) . . . . . 179—204
Isolation and characterization of cholate-resistant mutants of the blue-green alga *Nostoc muscorum*
by H.N. Singh and K.C. Sonie (Varanasi, India) (Rec'd Aug. 31st, 1976) . . . . 205—212
Mutational synergism between *p*-fluorophenylalanine and UV in *Coprinus lagopus*
by P.J. Talmud (London, England) (Rec'd July 13th, 1976) . . . . . 213—222
Production and characterisation of an early dwarf mutant in soybeam (Glycine max (K.) merrill)
by L.C. Kiang and G.M. Halloran (Parkville, Australia) (Rec'd Oct. 10th, 1976) . . . . . 223—230
Dominant-lethal test results with known mutagens in two laboratories
by D. Anderson, D.B. McGregor, I.F.H. Purchase, M.C.E. Hodge and J.A. Cuthbert (Cheshire and Midlothian, U.K.) (Rec'd April 21st, 1976) . . . . . 231—246
Triethylenemelamine induced dominant lethals in mice — comparisons of oral versus intraperitoneal injection
by E.R. Soares and W. Sheridan (Research Triangle Park, N.C., U.S.A.) (Rec'd Aug. 11th, 1976) . . . . . 247—254
Induction of micronuclei in mouse and hamster bone-marrow by chemical carcinogens
by M.A. Friedman and J. Staub (Richmond, Virginia, U.S.A.) (Rec'd July 27th, 1976) . . . . . 255—262
Spontaneous, chemical and viral mutagenesis in temperature-sensitive glutamine-requiring Chinese hamster cells
by N.B. Varshaver, M.I. Marshak, E.V. Luss, L.V. Gorbunova and N.I. Shapiro (Moscow, U.S.S.R.) (Rec'd Aug. 3rd, 1976) . . . . . 263—278
Low-level DNA exchanges in normal human and xeroderma pigmentosum cells after UV irradiation
by Y. Fujiwara and M. Tatsumi (Kobe, Japan) (Rec'd Sept. 21st, 1976) . . . . 279—290
Gamma-radiation-induced chromosomal aberrations in human lymphocytes: dose-rate effects in stimulated and non-stimulated cells
by J. Liniecki, A. Bajerska, K. Wyszyńska and B. Cisowka (Lodz, Poland) (Rec'd July 13th, 1976) . . . . . 291—304
X-ray induced reversions of the mutant forked-3N in *Drosophila melanogaster*, a reappraisal
by M.M. Green (Davis, Calif., U.S.A.) (Rec'd July 23rd, 1976) . . . . . 305—308
Long-term use of phenytoin: effects on bone-marrow chromosomes in man
by S. Knuutila, M. Siimes, O. Simell, P. Tommisto and T. Weber (Helsinki, Finland) (Rec'd Sept. 17th, 1976) . . . . . 309—312
Induction of mutations in bacteriophage T7 by γ-rays: independence of host-repair mechanisms
by J.F. Bleichrodt, A.L.M. Roos and W.S.D. Roos-Verhey (Rijswijk, The Netherlands) (Rec'd Nov. 19th, 1976). . . . . 313—326
Induction of pure and sectored mutant clones in excision-proficient and deficient strains of yeast
by F. Eckardt and R.H. Haynes (Toronto, Canada) (Rec'd July 26th, 1976). . 327—338
Pathways of ultraviolet mutability in *Saccharomyces cerevisiae*. IV. The relation

between canavanine toxicity and ultraviolet mutability to canavanine resistance
by J.F. Lemontt (Oak Ridge, Tenn., U.S.A.) (Rec'd Oct. 6th, 1976) . . . . . 339—356
Gamma-ray-induced dominant mutations that cause skeletal abnormalities in mice. I. Plan, Summary of results, and discussion
by P.B. Selby and P.R. Selby (Neuherberg near Munich, West-Germany) (Rec'd July 30th, 1977) . . . . . 357—376
Chromosome damage in Chinese hamster cells sensitized to near-ultraviolet light by psoralen and angelicin
by M.J. Ashwood-Smith, E.L. Grant, J.A. Heddle and G.B. Friedman (Victoria, B.C. and Downsview, Ont., Canada) (Rec'd Nov. 1st, 1977). . . . . 377—386
The action of *N*-methyl-*N*-nitrosourea on non-established human cell lines in vitro. I. Cell cycle inhibition and aberrations induction in diploid and Down's fibroblasts
by B. Kaina, H. Waller, M. Waller and R. Rieger (Halle/S and Gatersleben, GDR) (Rec'd Sept. 19th, 1976) . . . . . 387—400
The action of *N*-methyl-*N*-nitrosourea on non-established human cell lines in vitro. II. Non-random distribution of chromatid aberrations in diploid and Down's cells
by B. Kaina (Halle/S, GDR) (Rec'd Oct. 6th, 1976) . . . . . 401—414
Excision repair of DNA base damage in human cells treated with the chemical carcinogen 4-nitroquinoline 1-oxide
by M. Ikenaga, H. Takebe and Y. Ishii (Osaka, Japan) (Rec'd Oct. 1st, 1976) . 415—428
Chromosomal aberration, mutation and morphological transformation of Syrian hamster embryonic cells after exposure to methylnitrosocyanamide.
by N.Inui and M. Taketomi (Tokyo and Kanagawa, Japan) (Rec'd Oct. 25th, 1976) . . . . . 429—440

Short communications
Evaluation of the effect of ethanol on the frequency of micronuclei in the bone marrow of Swiss mice
by R.B. Chaubey, B.R. Kavi, P.S. Chauhan and K. Sundaram (Bombay, India) (Rec'd Nov. 8th, 1976). . . . . 441—444
Isolation of sulphate reductaseless mutants of the blue-green alga *Nostoc muscorum*
by S.P. Singh (Varanasi, India) (Rec'd Nov. 18th, 1976) . . . . . 445—448
Genetic analysis of X-ray-induced interchanges in primary spermatocytes of *Drosophila melanogaster* between a rod X chromosome and a Y chromosome
by R.E. Green and S. Zimmering (Providence, R.I., U.S.A.) (Rec'd Aug. 10th, 1976) . . . . . 449—452
Survival of caffeine-fed adult males and females from strains of *Drosophila melanogaster*
by S. Zimmering, R. Kofkoff and C. Osgood (Providence, R.I., U.S.A.) (Rec'd Aug. 10th, 1976). . . . . 453—456

Anouncements . . . . . 457—459
Erratum. 460
Contents Vol. 43 (1977). . . . . 461—464
